PROFESSIONAL SUMMARY

[Portfolio](#)

Software Engineer with hands-on experience in building scalable backend systems, REST APIs, and automation workflows using Fast API, Flask, and Temporal. Comfortable owning a feature from design to deployment in fast-paced Agile teams.

WORK EXPERIENCE

Software Engineer Intern

Surepass Technologies | June 2026 – Present | Onsite

- Built secure **REST APIs** and automated **KYC & Batch Solver** workflows using **FastAPI, Flask, PostgreSQL, and Temporal**.
- Developed Python scripts for **Elasticsearch data mapping, data cleaning, bulk ingestion**, and web scraping automation.
- Resolved 20+ bugs**, built user-friendly dashboard & pages, improving system reliability and **increasing team efficiency by 25%**.

Full Stack Developer Intern

4everCloud Technologies | Feb 2026 – May 2026 | Onsite

- Developed responsive **frontend pages and dashboards** for a multilingual **Consent Management System** using React.
- Integrated **REST APIs** and implemented consent workflows for seamless user experience.
- Built a **rule-based chatbot** and collaborated on backend integrations for platform features.

Frontend Development Intern

Planetcast Media Services Ltd. | Nov 2025 – Jan 2026 | Onsite

- Built a responsive **billing management application** with **HTML, CSS, and JavaScript**, implementing **dark/light mode**, role-based dashboards, and bill management features.
- Developed interactive UI components including a **Kanban board, analytics dashboard, and export functionality (CSV, Excel, PDF)**.

TECHNICAL SKILLS

Languages: Python, JavaScript (ES6+), TypeScript, Core Java, HTML5, CSS3

Frontend: React.js, Context API, Tailwind CSS, Bootstrap, Responsive Web Design, Modern UI/UX

Backend: FastAPI, Flask, Node.js, Express.js, REST APIs, JWT Authentication, API Integration, MVC Architecture, WebSockets

Databases & Search: PostgreSQL, MongoDB, MySQL, Elasticsearch

Tools & Technologies: Git, GitHub, Postman, VS Code, IntelliJ IDEA, Eclipse IDE, PyCharm, Redis, Kibana, Temporal, Microsoft Excel

Cloud & Deployment: Docker, Vercel, Render, Cloudflare

Other Skills: Prompt Engineering, Web Scraping, Data Mapping, Data Cleaning, Bulk Data Ingestion, Batch Processing, Debugging

PROJECTS

SmartGroCart – Online Grocery Management System

MERN Stack | React.js, Node.js, Express.js, MongoDB

[Live Demo](#)

- Built a full-stack grocery management platform with budget tracking, family member management, and smart shopping organization.
- Developed secure REST APIs with JWT authentication and integrated MongoDB Atlas for scalable data management.
- Deployed the application on Vercel (Frontend) and Render (Backend) with a responsive, mobile-friendly user interface.

NextHire AI – AI-Powered Recruitment & Resume Screening System

React.js, FastAPI, Node.js, PostgreSQL, Python

[Live Demo](#)

- Developed an AI-powered recruitment platform with resume screening, candidate evaluation, and job management using React, FastAPI, and PostgreSQL.
- Integrated NLP and embedding models to analyze resumes, rank candidates, and generate recruitment insights.
- Built scalable backend APIs and a responsive dashboard for efficient recruitment workflow management.

EDUCATION

Bachelors of Technology in Computer Science (B.Tech)

2022-2026

Dr APJ Abdul Kalam Technical University | CGPA 8.68

XII | Central Board of Secondary Education

2022

Kerala Education Society Senior Secondary School | Percentage 77%

XI Central Board of Secondary Education

2020

Kerala Education Society Senior Secondary School | Percentage 94.8%

CERTIFICATIONS & SKILLS

- Secretary | Academic Council | MGM CoET (2025-2026)
- Cultural Member | MGM CoEt Cultural Society (2024-2025)
- Certified in Java Full Stack Development from CETPA Infotech, with hands-on training in Spring Boot, JDBC, and RESTful APIs.
- Strong Communication, leadership and team work skills demonstrated through project work and extracurricular activities
- Certifications: Java Development (Infosys Springboard) & Data Analytics (Dell Technologies)
